

Certified Cisco Network Associate

337.5 Hours / 10 Weeks

Program Objectives:

This program of study prepares the student to become a CISCO Certified Network Associate.

Course Description :

The Cisco Networking Program introduces students to the networking field. The course focuses on network terminology and protocols, local-area networks (LANs), wide-area networks (WANs), Open System Interconnection (OSI) models, cabling, cabling tools, routers, router programming, Ethernet, Internet Protocol (IP) addressing, and network standards.

In addition, instruction and training are provided in the proper care, maintenance, and use of networking software, tools, and equipment and all local, state, and federal safety, building, and environmental codes and regulations.

Upon Completion of this program, participants will be qualified for the following job titles (levels of entry vary depending upon individual experience and background):

Network Administrator	Computer Analyst
Networking Specialist	Database Administrator
Network Analyst	Network Support Administrator
	Computer Support Specialist

Courses:

CCNA 1: Networking Basics
CCNA 2 Router and Routing Basics
CCNA 3 Switching Basics and Intermediate Routing
CCNA 4 WAN Technologies
Career Development
