

# Web Design Plus Specialist

## 337.5 Hours / 10 Weeks

### Program Objectives:

This program of study is designed to prepare the student for **Designing Professional Web sites**, plus the operating, installing and maintaining of Personal Computers. The hardware portion of the program is helpful to the web master to ensure that the web site will be properly created and that the system can handle the software for the clients. This course also prepares the student for the new A+ Exam. Through lecture and appropriate Lab Training, the program will provide the student with the technical, manual and manipulative skills and knowledge to be employed as an entry level Web Master or Web Site Designer.

Courses include, Front Page, HTML, Microsoft Publisher, PC Configuration, Advanced PC Configuration and Troubleshooting Techniques, A+ Prep
